Dear cross-country skiers visiting the Logarska dolina Landscape park!

As managers of the landscape park, we have been carefully maintaining the cross-country ski trails for many years. We are behind one of the successful cross-country skiing seasons on the trails of the Logarska dolina Landscape park. Logarska dolina is thus becoming one of the most popular destinations for cross-country skiers, as the quality and length of its trails can be compared to many other Slovenian destinations with well-maintained cross-country ski tracks.

Seventeen kilometres of groomed trails, with a varied terrain configuration and the possibility of skiing across meadows and forests, offer cross-country skiers an abundance of enjoyment in the natural environment of the landscape park. Cross-country skiing on the trails of Logarska dolina is suitable both for beginners and for experienced recreational skiers.

As the maintenance of the trails involves material costs and staff work, we introduced a fee for the use of the cross-country ski trails last year. Our aim is to improve visitor monitoring and to encourage sustainable behaviour among our visitors. This will also allow us to more easily ensure order in parking areas and in the use of the ski trails, which are intended exclusively for cross-country skiers.

The start of this year's cross-country skiing season, and thus the sale of ski passes, will take place with the first substantial snowfall and once the ski trails have been prepared.

You will be informed in due time via the website of the Logarska dolina Landscape park <https://www.logarska-dolina.si/> and the Facebook profile of the Logarska dolina Landscape park, where the rules for cross-country skiers and additional information are also published. Information on the condition and maintenance of the cross-country ski trails will likewise be updated regularly.
